Author's Note

Keti Gviniashvili is from Gori and graduated from Gori State University in 2023 with a Bachelor's degree in English Philology. Since graduation, she has done freelance work as an artist and worked as a tour guide and restaurant server in Tbilisi, but her goal is to continue her education at the University of Osnabrück in Germany. Although the university has classes taught in English, the requirement for a long-term visa is that she must have a specific proficiency in the German language, so she is concentrating on achieving these skills now. Keti has already traveled in Germany, Poland, and Austria but she hopes to travel more throughout Europe. Her leisure activities are reading, drawing, and playing video games.
